

QUOTATION

From: Carissa Wong

Item No: Octaton tube forming machine
Price: 40mm-----US\$33,000 60mm -----US\$35,000 70mm-----US\$35,000
Trade Terms: FOB Shanghai
Lead time: 90 days after being paid for advanced 30%
Payment terms: T/T, 30% to be paid after the order confirmed, 70% to be paid before shipment.

Components of the machine

Manual uncoiler

Automatic pressing machine

Guiding

Main forming machine

PLC control system

Hydraulic station

Flying saw cutting

Run out table

Main Specifications

- 1. Suitable material:** galvanized steel
- 2. The speed of forming:** 5-8 meter /min
- 3. The precision of roller:** less than +/-1mm(5m)
- 4. Steps:** 18
- 5. The diameter of roller:** 120
- 6. The material of roller:** Gr15, quencher, HRC58-62
- 7. The material of roller axes:** 45# steel
- 8. PLC control:** fix length control +/-0.5mm (made in Japan)

The whole machine is controlled by industry computer-PLC. Including:

PLC: Panasonic (Japan)

Touch screen: Panasonic (Japan)

Rotating coder: Omron (Japan)

Transducer: Panasonic (Japan)

9. Frequency conversion deceleration:

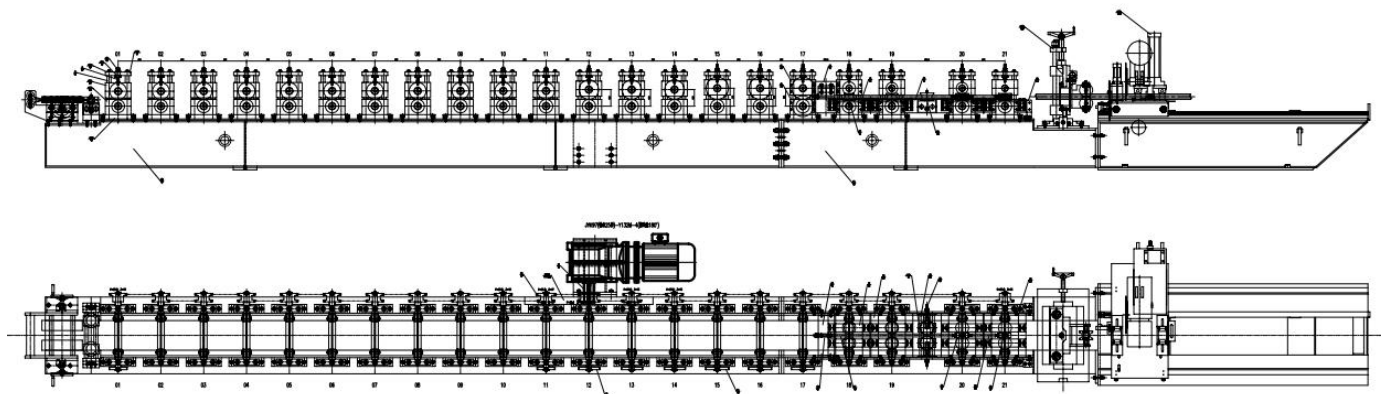

Motor 380V, 50HZ, 7.5kw (can change according to the customer's requirement)

10. Pneumatic cutting

11. Power of cutting motor: 2.2kw

12. Driven system: pin-gear speed reducer, chain driven
